

## Outdoor Dangerous Goods Stores ODG series

# Outdoor Dangerous Goods Stores

Safely and securely store up to 350L in this Australian made outdoor dangerous goods storage unit. Australian standard AS1940 CLASS 3, AS1940 CLASS 5.1, AS4326 CLASS 5.2, AS2714 CLASS 6, AS2312, AS/NZS 4452:1997

Available in a variety of styles to accommodate different substances including flammable, corrosive, toxic or oxidizing agents. Simply select your dangerous goods Class requirements from the dropdown menu above.

### Features:

Constructed with Heavy duty metal steel.

Features a rear-sloping roof and gutter to reduce admission of rainwater.

Ventilated in accordance with Australian Standards AS1940-2017.

Built-in spill containment bund, including an externally accessible drain to easily decant sump.

Manual door with ISO locking bar for providing extra security and strength.

Heavy duty door hinged allowing 270 opening to load and unload.

Heavy duty galvanized steel adjustable shelf.

Built in forklift channels make the cabinet easily transportable (will fit the majority of standard fork).

Features a high build 2 pack epoxy primer and semi-gloss 2 pack polyurethane blue top coat (dry film of 200 microns in accordance with AS 2312.1-2014).

Includes safety and warning signage according to the goods to be stored (purpose of cabinet to be confirmed prior to build).

An earth lug and earth stake is provided for instillation on site.

Our purpose built outdoor dangerous goods storage cabinets offer superior quality and longevity in comparison to other market alternatives.
