2 Drum Bunded Spill Pallet with drain

Our 2 Drum Bunded Spill Pallets are built for heavy loads, convenient handling and prevent costly clean-ups. Constructed from high quality polyethylene they are resistant to most chemicals including acids and corrosives and offer great strength.

The 2 Drum Bunded Spill Pallet is a nestable design allowing multiple pallets to be shipped, stored and can be easily moved with a pallet jack or forklift. (Remove loads before moving the Spill Bund) The yellow translucent Hi Vis bund sump allows visual leak detection and ensures leaks, drips and spills are safely contained. For safety, the grate features a slip resistant surface and can be conveniently removed for an internal inspection and cleaning of spilt liquids.

Designed for:

- Storage of liquids and chemicals
- Leak containment
- Satellite waste collection
- Liquid dispensing

Features:

- 2 Drum Spill Pallets are built for heavy loads and convenient handling
- Bright, safety yellow sidewalls are translucent, offering convenient visual leak detection.
- LLDPE Construction compatible with a broad range of chemicals, including acids and corrosives.
- Meets EPA Container Storage Regulation 40 CFR 264.175 and UFC Spill Containment Regulations.

Specifications:

Dimensions: 1350x700x450mm

Spill Capacity: 250L

Material: LLDPE

Tare Weight: 25kg

Loading Capacity: Static 1300kg/Dynamic 800kg
